

ONE PLUS ONE

NFRW's National Membership Campaign 2006-7

The concept is simple ... if every current member brought just ONE new member into her club ... imagine the result! How many of you have a friend or acquaintance that you know is a Republican Woman, but is not a member?

A reflection from Vice-Chair Joyce Smith ...

*Three years ago I met Mary Theriac, former president of Vanderburg Republican Women. Mary had only been a member of her club for a short time before becoming president, and she made a remarkable statement to me that I want to share with you. **She said she would have become a member years before if only someone would have invited her to join!***

As with all organizations in order to be successful we need members! Growing membership lightens the load of responsibility and increases our arsenal of volunteers.

It is our responsibility as leaders to revive our organizations in every state. Times have changed, and in today's world many women have careers and limited time to volunteer, so they search for organizations that meet their specific needs. It is our quest to find those potential members and meet those special needs.

More details to come about One Plus One, the Federation's National Membership Campaign in Spring 2006. Spread the word to your clubs today and start tracking new recruitment numbers as of the first of the year.

Thank you for your support and participation!
